

LAJAC SCHOOL FILTER

LAJAC

lajac.com

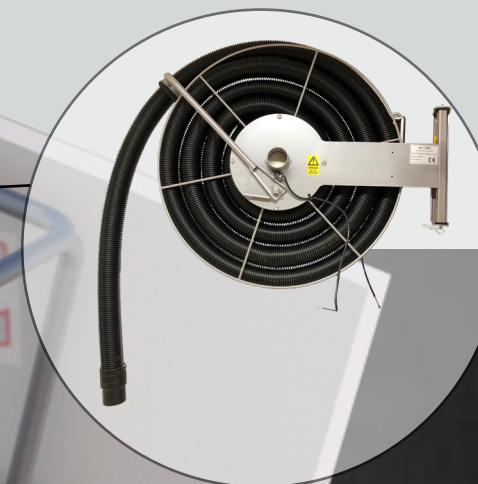

SKFI - Lajac School filter / bag filter

Lajac has now developed its own filter completely adapted for schools, small workshops and other premises where carpentry and handicraft work is performed. School filter SKFI is a filter with high performance and large capacity.

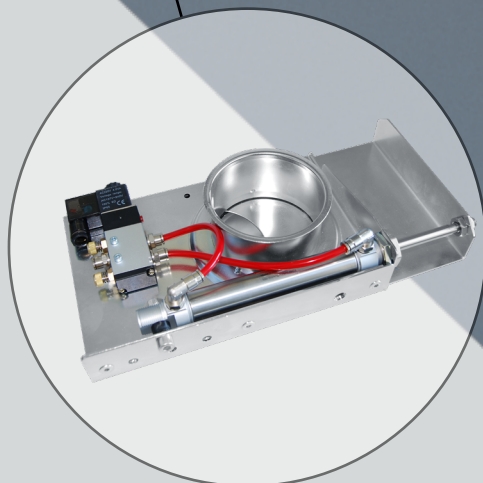

HOSR - Hose reel

The hose reel is a user-friendly and ergonomic product which results in more efficient cleaning time, because it is always close at hand manual and also quick-started. In addition to being extreme silent operation, the hose is kept intact due to the construction clean longer, as it rarely or never needs to be in contact with the floor.

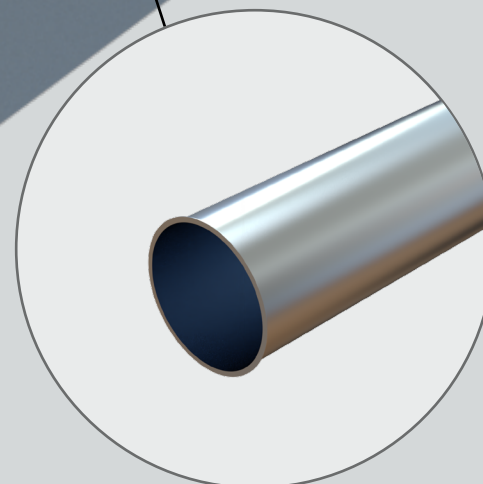

AUDA - Compressed air operated slide damper

AUDA - Galvanized compressed air operated automatic damper with pull rings edge. The automatic slide damper AUDA is a compressed air driven damper for tight and quick shutdown. Since the damper opens and closes automatically, the extraction is always focused on the connections, extraction points or on the machines currently in use.

Pipe system galvanized

Lajac's galvanized pipe fittings are recommended for this high vacuum extraction, where we stock everything that is part of one complete pipe system for central vacuuming and high suppression. Our stock includes pipes, pipe bends, pipe couplings, vacuum cleaner hoses, pneumatic slide valves, flap valves and industrial cleaning system with bench cleaning and floor cleaning.

LAJAC AB is an experienced company with over 20 years of expertise in process ventilation.

We are the obvious choice for both schools and industries, known for our reliability and quality.

With our own production, we ensure that our products meet the highest standards. Our commitment to innovation and customer satisfaction makes us one of the leading player on the market.

Our stock is extensive and well-stocked, allowing for quick access to our products. Most items are available for immediate delivery within 24 hours. We are dedicated to ensuring an efficient and reliable service to meet your needs in the best possible way.
